

Japan Society for the Promotion of Science  
**BRIDGE Fellowship Program**  
FY2010 Application Guidelines

## **1. Purpose**

The Japan Society for the Promotion of Science (JSPS) provides opportunities for overseas researchers who have conducted research activities in Japan under the Postdoctoral Fellowships for Foreign Researchers or other JSPS programs to come back to Japan to create, sustain and/or strengthen research collaborations with Japanese colleagues. The objective is to build strong networks among researchers in Japan and other countries through a variety of activities. These include former JSPS fellows visiting their past host institutions in Japan, or coming to Japan to plan or implement joint research projects and seminars, to offer training or lectures for young researchers, or to prepare or attend scientific conferences and research meetings. The results of each BRIDGE visit are recorded in reports prepared by both the visiting researcher and his/her alumni association. These reports are used to evaluate the visit along with the collaborative relations created, sustained or strengthened by way of the Fellow's visit.

Researchers invited to Japan under this fellowship program are called "BRIDGE Fellows." Based on applications by individual researchers, candidates are recommended to JSPS by JSPS alumni associations and JSPS offices or the JSPS-designated official in Japanese Embassy. Hereinafter a JSPS office or a JSPS-designated official in a Japanese Embassy will be commonly referred to as a "JSPS office."
