**DR. CHURCHILL SAOKE**  
(BSc. MSc. Ph. D. M.A. MW Fellow – YALI)

**Utilization of Res In P-T-G For  
Green Hydrogen Production,  
Grid Stabilization, Electric  
Mobility And Circular Economy  
in Kenya**

SPEAKER'S  
BIO

**RSVP FORM**

**RSVP by 20<sup>th</sup> JUNE**

In this seminar, the presenter intends to give a presentation on the potential of green hydrogen in Kenya's energy sector. Specifically, the presentation will seek to spur discussion the potential for collaboration existing in the use of RES (solar, wind, hydro, geothermal, etc.) in Kenya to produce green hydrogen through electrolysis. Moreover, the presentation will also highlight possible areas of interest around electric mobility, and circular economy.
